**Creation Myths**-Marie-Louise von Franz 2017-05-09 Creation myths are the deepest and most important of all myths because they are concerned with both the basic patterns of existence and the ultimate meaning of life. In this book, an eminent Jungian analyst examines the recurring motifs that appear in creation myths from around the world and shows what they teach us about the mysteries of creativity, the cycles of renewal in human life, and the birth of consciousness in the individual psyche. Among the topics discussed are: • Why the creative process is often accompanied by anxiety, depression, loneliness, and fear of the unknown. • The meaning of creation motifs such as the egg, the seed, the primordial being, the creative fire, the separation of heaven and earth, and the four stages of creation. • Creation symbolism in the alchemical opus of medieval tradition. • How creation-myth motifs appear in the dreams of people who are on the verge of a leap forward in consciousness.

**Neurobiology in the Treatment of Eating Disorders**-Hans Wijbrand Hoek 1998-08-17 This book describes the clinical heterogeneity and diagnosis of eating disorders. It presents advances in neurobiological research and also discusses treatments. The aim is to make accessible to clinicians the recent advances in the neurosciences and suggest how to incorporate the data in a treatment setting. The authors have also presented their concepts and ideas on the future directions in this area. The book is to be published in time for a large eating disorders meeting in New York, April 1998.

**Holy Anorexia**-Rudolph M. Bell 2014-05-09 Is there a resemblance between the contemporary anorexic teenager counting every calorie in her single-minded pursuit of thinness, and an ascetic medieval saint examining her every desire? Rudolph M. Bell suggests that the answer is yes. "Everyone interested in anorexia nervosa . . . should skim this book or study it. It will make you realize how dependent upon culture the definition of disease is. I will never look at an anorexic patient in the same way again."—Howard Spiro, M.D., Gastroenterology "[This] book is a first-class social history and is well-documented both in its historical and scientific portions."—Vern L. Bullough, American Historical Review "A significant contribution to revisionist history, which re-examines events in light of feminist thought. . . . Bell is particularly skillful in describing behavior

within its time and culture, which would be bizarre by today's norms, without reducing it to the pathological."—Mary Lassance Parthun, Toronto Globe and Mail "Bell is both enlightened and convincing. His book is impressively researched, easy to read, and utterly fascinating."—Sheila MacLeod, New Statesman

**The Secret of Hanging Rock**-Joan Lindsay 2018-08-25 Joan Lindsay's classic novel Picnic at Hanging Rock is a subtle blend of mysterious and sinister events set in a period of Australian social life drawn with loving nostalgia. The final chapter of the novel was removed at the request of her publishers, creating a mystery to which thousands have begged to know the solution. The missing chapter reveals what did happen to the schoolgirls who vanished from the Rock after a St Valentine's Day picnic in 1900, and holds commentaries by John Taylor, Yvonne Rousseau and Mudrooroo.

**ABC of Obesity**-Naveed Sattar 2009-04-08 Obesity is a hugely expensive and increasing problem worldwide, leading to disability, reproductive problems, depression and accelerated metabolic and vascular diseases in a large proportion of men, women and children. The ABC of Obesity is a new guide which will aid its effective management, addressing issues such as dieting, exercise, self esteem, drug treatment and surgery. Recent evidence is used to highlight frequent problems, successful treatment options, and the most common causes. Written by leading experts, this is a widely accessible text and an indispensable guide for all general practitioners, junior doctors, nurses, and other healthcare professionals who are involved in the treatment and research of this common condition.

**Schein's Common Sense Emergency Abdominal Surgery**-SCHEIN MOSHE 2010-03-10 Emergency Abdominal Surgery is a battleground for the surgeon - providing character-building experiences, and opportunities for triumph and disaster. In the third edition of this 'simple' book, emergency abdominal surgery is discussed in an informal and no nonsense fashion - as practiced in the 'trenches' of the ER and the OR. The preferred approach for a given situation is discussed in context; it has to fulfill certain prerequisites: save lives, decrease morbidity, be cost effective and be performed correctly.

**The Science of Evil**-Simon Baron-Cohen 2011-05-06 A groundbreaking and challenging examination of the social, cognitive, neurological, and biological roots of psychopathy, cruelty, and evil Borderline personality disorder, autism, narcissism, psychosis: All of these syndromes have one thing in common -- lack of empathy. In some cases, this absence can be dangerous, but in others it can simply mean a different way of seeing the world. In The Science of Evil Simon Baron-Cohen, an award-winning British researcher who has investigated psychology and autism for decades, develops a new brain-based theory of human cruelty. A true psychologist, however, he examines social and environmental factors that can erode empathy, including neglect and abuse. Based largely on Baron-Cohen's own research, The Science of Evil will change the way we understand and treat human cruelty.

**Children of the Matrix**-David Icke 2017-01-31 How an interdimensional race has controlled the planet for thousands of years - and still does.

**The Thriving Adolescent**-Louise L. Hayes 2015-11-01 Adolescents face unique pressures and worries. Will they pass high school? Should they go to college? Will they find love? And what ways do they want to act in the world? The uncertainty surrounding the future can be overwhelming. Sadly,

and all too often, if things don't go smoothly, adolescents will begin labeling themselves as losers, unpopular, unattractive, weird, or dumb. And, let's not forget the ubiquitous 'not good enough' story that often begins during these formative years. These labels are often carried forward throughout life. So what can you do, now, to help lighten this lifelong burden? The Thriving Adolescent offers teachers, counselors, and mental health professionals powerful techniques for working with adolescents. Based in proven-effective acceptance and commitment therapy (ACT), the skills and tips outlined in this book will help adolescents and teens manage difficult emotions, connect with their values, achieve mindfulness and vitality, and develop positive relationships with friends and family. The evidence-based practices in this book focus on developing a strong sense of self, and will give adolescents the confidence they need to make that difficult transition into adulthood. Whether it's school, family, or friend related, adolescents experience a profound level of stress, and often they lack the psychological tools to deal with stress in productive ways. The skills we impart to them now will help set the stage for a happy, healthy adulthood. If you work with adolescents or teens, this is a must-have addition to your professional library.

**Madness and Cure**-Robert Langs 1985

**Laudato Si'**-Pope Francis 2020-10-06 Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

**ABC of Mental Health**-Teifion Davies 2009-07-06 Mental health services have changed completely in the UK, and the new edition of ABC of Mental Health has been thoroughly updated and revised to reflect this. Providing clear practical advice on how to recognise, diagnose and manage mental disorders successfully and safely, with sections on selecting drugs and psychological treatments, and improving compliance, ABC of Mental Health also contains information on the major categories of mental health disorders, the mental health needs of vulnerable groups (such as the elderly, children, homeless and ethnic minorities) and the psychological treatments. Fully up to date with recent mental health legislation, this new edition is as comprehensive as it is invaluable. By covering the mental health needs of special groups, this ABC equips GPs, hospital doctors, nurses, counsellors and social workers with all the information they need for the day to day management of patients with mental health problems.

**Coastal Lagoons**-Michael J. Kennish 2010-06-15 Dynamic and productive ecosystems, coastal lagoons play an important role in local economies and often bear the brunt of coastal development, agricultural, and urban waste, overuse from fisheries, aquaculture, transportation, energy production, and other human activities. The features that make coastal lagoons vital ecosystems underline the importance of sound management strategies for long-term environmental and resource sustainability. Written by an internationally renowned group of contributors, Coastal Lagoons: Critical Habitats of Environmental Change examines the function and structure of coastal lagoonal ecosystems and the natural and anthropogenic drivers of change that affect them. The contributors examine the susceptibility of coastal lagoons to eutrophication, the indicators of eutrophic conditions, the influences of natural factors such as major storms, droughts and other climate effects, and the resulting biotic and ecosystem impairments that have developed worldwide. They provide detailed descriptions of the physical-chemical and biotic characteristics of diverse coastal lagoonal ecosystems, and address the environmental factors, forcing features, and stressors affecting hydrologic, biogeochemical, and trophic properties of these important water bodies. They also discuss the innovative tools and approaches used for assessing ecological change in the context of anthropogenically- and climatically-mediated factors. The book investigates the biogeochemical and ecological responses to nutrient enrichment and other pollutants in lagoonal estuaries and compares them to those in other estuarine types. With editors among the most noted international scholars in coastal ecology and contributors who are world-class in their fields, the

chapters in this volume represent a wide array of studies on natural and anthropogenic drivers of change in coastal lagoons located in different regions of the world. Although a significant number of journal articles on the subject can be found in the literature, this book provides a single-source reference for coastal lagoons within the arena of the global environment.

**Cognitive Therapy of Eating Disorders on Control and Worry**-Sandra Sassaroli 2011 The aim of this book is to illustrate a variant of the standard cognitive treatment for eating disorders. This therapy is based on the principle that assessing and treating the patient's process of worry and sense of control fosters greater understanding of the psychopathology of the eating disorder and increases the efficacy of cognitive treatment. The book is an edited collection of chapters that discuss the psychopathological roles played by control and worry in eating disorders, and provide a detailed description of the therapeutic protocol, which primarily focuses on the treatment of the cognitive factors of control and worry as core factor of a psychotherapy of eating disorders. In addition, the book shows contributions from other theorists in the field who have investigated the role of worry, preoccupation, and control, or who explore the connections between worry, control, and other emotional factors underlying eating disorders, such as perfectionism, self-esteem, and impulsivity.

**Mobile Screens**-Nanna Verhoeff 2012 "Nanna Verhoeff's new book is a must for anybody interested in visual culture and media theory. It offers a rich and stimulating theoretical account of the central dimension of our contemporary existence--interfacing and navigating both data and physical world through a variety of screens (game consoles, mobile phones, car interfaces, GPS devices, etc.). In the process of exploring these new screen practices, Verhoeff offers fresh perspectives on many of the key questions in media and new media studies as well as a number of new original theoretical concepts. As the first theoretical manual for the society of mobile screens, this book will become an essential reference for all future investigations of our mobile screen condition.--Lev Manovich."--Publisher's description.

**Implementing the Group-Based Early Start Denver Model for Preschoolers with Autism**-Giacomo Vivanti 2016-12-16 This book examines a group-based adaptation of the Early Start Denver Model (ESDM) designed for use with preschoolers with autism spectrum disorder (ASD). It describes the principles and procedures of the Group-Based Early Start Denver Model (G-ESDM) and provides practical and empirical guidelines for implementing effective, affordable programs across public healthcare and educational settings. Chapters offer rationales and strategies for designing and evaluating interventions, building interdisciplinary teams, and organizing learning spaces to engage student interest. Examples discuss the social interactions in groups that provide opportunities for learning, improving interpersonal skills, and reducing problem behaviors. In addition, the book offers ideas for retooling teaching strategies when an individual child lags behind the rest of the group. Featured topics include: Creating treatment objectives in the G-ESDM. Setting up the G-ESDM team and learning environment. Development of the G-ESDM classroom curriculum. Practical tools such as decision-making trees, teaching templates, and fidelity systems. Facilitating learning through peer interactions and social participation. Implementing the Group-Based Early Start Denver Model for Preschoolers with Autism is a must-have resource for clinicians and practitioners as well as researchers, professors, and graduate students in the fields of child and school psychology, behavioral therapy, and social work along with psychiatry, pediatrics, and educational and healthcare policy.

**Transactional Analysis in Contemporary Psychotherapy**-Richard G. Erskine 2018-03-08 After fifty years of development and refinement in Transactional Analysis (TA), the theory of methods and the actual methods have changed considerably from those originally published by Eric Berne. Many concepts and methods have emerged and been subject to clinical experimentation, some have been refined and expanded and some are no longer used. This book includes contributions from several authors, each of whom presents his or her unique focus on how TA is used in their psychotherapy practice. This book will address the therapeutic effectiveness of various methods in TA and will cover a variety of topics such as unconscious experience, transference-countertransference, the therapist's transparency, transgenerational scripts, trauma and regression, psychological games, the self-destructive client, an integrative approach to the psychotherapy of obsession, gender psychopolitics, and psychotherapy from a social-cognitive perspective. It is written for both psychotherapists and counsellors who want to learn and refine their knowledge of contemporary TA methods that are most effective with today's clients.
